EDUCATION

KIET Group of Institutions **2023 – 2027**
Bachelor of Technology, Information Technology *Ghaziabad, India*

Naval's National Academy **2021 – 2022**
Intermediate (Class XII) *Gorakhpur, India*

TECHNICAL SKILLS

Languages: C++, JavaScript, HTML5, CSS3
Frameworks/Libraries: React.js, Node.js, Express.js, Bootstrap, ShadCN UI, EJS
Tools: Git, GitHub, Postman, VS Code, MongoDB Atlas, Vercel, Cloudinary, npm
Databases: MongoDB, MySQL, Mongoose ODM

PROJECTS

Career-Connect | React.js, Node.js, Express.js, MongoDB, JWT, Multer, Cloudinary, MERN Stack **Nov 2025**

- Developed a scalable full-stack MERN job portal web application with JWT-based authentication, RBAC, and 15+ RESTful API endpoints supporting end-to-end Employer and Job Seeker workflows including job posting and application tracking.
- Implemented fine-grained role-based authorization for 2 distinct user types with access control policies, enabling full-cycle recruitment management via optimized Node.js and Express.js REST API services with server-side validation.
- Integrated Cloudinary for cloud-based file storage and Multer for resume document uploads; built a responsive React.js UI with cross-browser compatibility, supporting core user workflows with a maintainable architecture.

InvoiceAI | React.js, Node.js, Express.js, MongoDB, Google Gemini API, Razorpay, REST APIs, JWT **Nov 2025**

- Built an AI-powered full-stack Invoice Generator web application using the MERN stack (MongoDB, Express.js, React.js, Node.js) with JWT authentication, RBAC, modular REST API architecture, and production-ready deployment on Vercel.
- Integrated Google Gemini API for natural language invoice generation and conversational editing, implementing JSON schema validation, automated invoice state management, and error handling to streamline invoice creation.
- Engineered Razorpay payment gateway integration with webhook-based event verification, recurring billing automation, and a real-time analytics dashboard, achieving fast API response time through backend performance optimization.

Blogify | Node.js, Express.js, MongoDB, Mongoose, EJS, JWT, Multer, Cloudinary, REST APIs **Jan 2026**

- Architected a full-stack blogging web application using Node.js, Express.js, MongoDB, and MVC design pattern, integrating JWT authentication and role-based access control (RBAC) for secure user session management across 2 user roles.
- Developed 10+ RESTful API endpoints with complete CRUD functionality for blog posts and comments using Express.js middleware and Mongoose ODM, enforcing owner-level authorization and reducing average query latency.
- Optimized media delivery by integrating Cloudinary CDN and Multer for cloud-based image uploads with asynchronous request handling, achieving improved server response time and overall application performance.

POSITION OF RESPONSIBILITY

Kinesis Technical Society **April 2024 – Present**
Core Lead *Ghaziabad, India*

- Led full-stack web development initiatives and organized 3+ national-level hackathons including NASA Space Apps Challenge and Dataverse, coordinating participation from **1000+ students across 50+ institutions**.
- Delivered technical workshops on web development, improving team software development skills and increasing society engagement.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner** – AWS Cloud Foundations: cloud computing, AWS services, cloud infrastructure, and deployment models.
- **Explore a Career in Front-End Web Development** – Earned LinkedIn Learning certificate in Front-End Web Development.
- **AWS Certified AI Practitioner** – AI/ML fundamentals, generative AI, AWS AI services, responsible AI, and machine learning concepts.

ACHIEVEMENT/ACTIVITIES

- **Patent – Saarthi** – Interactive Cultural Heritage Exploration System using 3D modeling and web technologies; Application No. 202511012299.
- **Hackathon** – Secured 4th rank among 60+ teams at HackHeaven 2.0 (GDG ABESEC) for developing ZenHeaven, an AI-powered mental health web app.
- **Naukri Young Turks** – Scored 97.7 percentile among 4.1 lakh participants in Naukri Young Turks aptitude test.
- **Hacktoberfest 2024 & 2025** – Contributed to open-source software development via GitHub pull requests and code reviews.
